Mr Luis Verne

Dr. Sir

I beg as a particular favor that you will forward me immediately four copies of the correspondence between Messrs Bayliss & Glacum and the Government of B. A. also, the printed documents which you have promulgated to the World in relation to the same; these I particularly want in consequence of the arrival of Capt. Smiley, from the Falklands, who has discharged the greater part of his cargo, and who I think, would proceed again to that place provided any inducement is held out to him, these documents he wishes to disseminate there and he invites you by this opportunity in relation to many enquiries made

I beg to subscribe myself

Your M^o Obed^t

Wm. Patricke
